

Fusion Online

First of all, you will need a unique onboarding code – this is provided by the school office.

Getting started

1. Download the app - You can download the app by scanning the relevant QR code for your phone, or by searching 'Fusion Online' on your app store. Alternatively, please go to <https://fusion.crbcunninghams.co.uk> where you can find download links or use our web-browser version.

2. Create an account (this is automatically linked to the iPayimpact account you will have already set up)

- On the login page, tap on the **Sign-up** option
- Either click on the **Scan Code** button and follow the on-screen instructions to scan your **onboarding code** or simply type it in.
- Enter the e-mail address that you want to use for your account. Enter a password and choose a security question, providing an answer that you will remember (you'll need this if you ever forget your password).
- Tap on the **Register** option and you'll receive an activation e-mail shortly afterwards. Follow the instructions in the e-mail to complete your registration.
- Once activated, you can log into the app to check your LIVE account balance.

What if I need help?

We're hoping that Fusion Online is really easy to use, but don't worry, if you do run in to any problems you can always visit <https://fusion.crbcunninghams.co.uk/help> to view a range of articles that should get you up and running in no time.

What if I don't have a compatible device?

The Fusion Online app is compatible with devices running iOS version 9+ and Android version 4.4+. If you do not have access to a device that is compatible, you can head on over to <https://fusion.crbcunninghams.co.uk> on any device that has a web-browser which means that you can check your account balance from a computer in the school library, or even on a games console!

Can I add multiple accounts to the Fusion app?

Not currently, no.

Each student needs to have their own account on Fusion.
